FOREWORD

With great appreciation for the wonderful cooperation we receive each year from the daylily world, we are submitting this price list a bit late in the season due to many unavoidable circumstances, too numerous to mention.

For that reason we are unable to get our price list out in four color printing this year. We hope that our service speaks for itself and that you favor us with your continued patronage. We assure you of our utmost effort to serve you well, courteously, generously and promptly. Our last catalogue has brought us bountiful results, we hope that this one will be similarly received. We have been favored with many visitors in the past year, we welcome one and all. Our place is open six days a week throughout the year and on Sundays by appointment for our friends and customers that prefer to visit with us then. Our peak blooming season is May 15th through June 15th.

This price list is being submitted this year in a somewhat, different way. The listing is different because we feel the older varieties are known to all and the necessity of description is eliminated. To those of you considered beginners, we suggest you keep our 1960 price list in which all the varieties are described. However, we have sold out of a large number of these old favorites, therefore, please do not order from our old catalogue, refer to it only for descriptions of cheaper old varieties.

We are continuing our policy of bonus plants and we hope you take advantage of this extra service.

With sincere wishes for success in growing your daylilies, and heart felt thanks for your patronage, we are,

Sincerely,

C. G. & Louise Simon
